

# FINDING A DATA SHARING SOLUTION: CONNECTING JOURNALS TO HARVARD'S DATaverse

## About The Dataverse Project

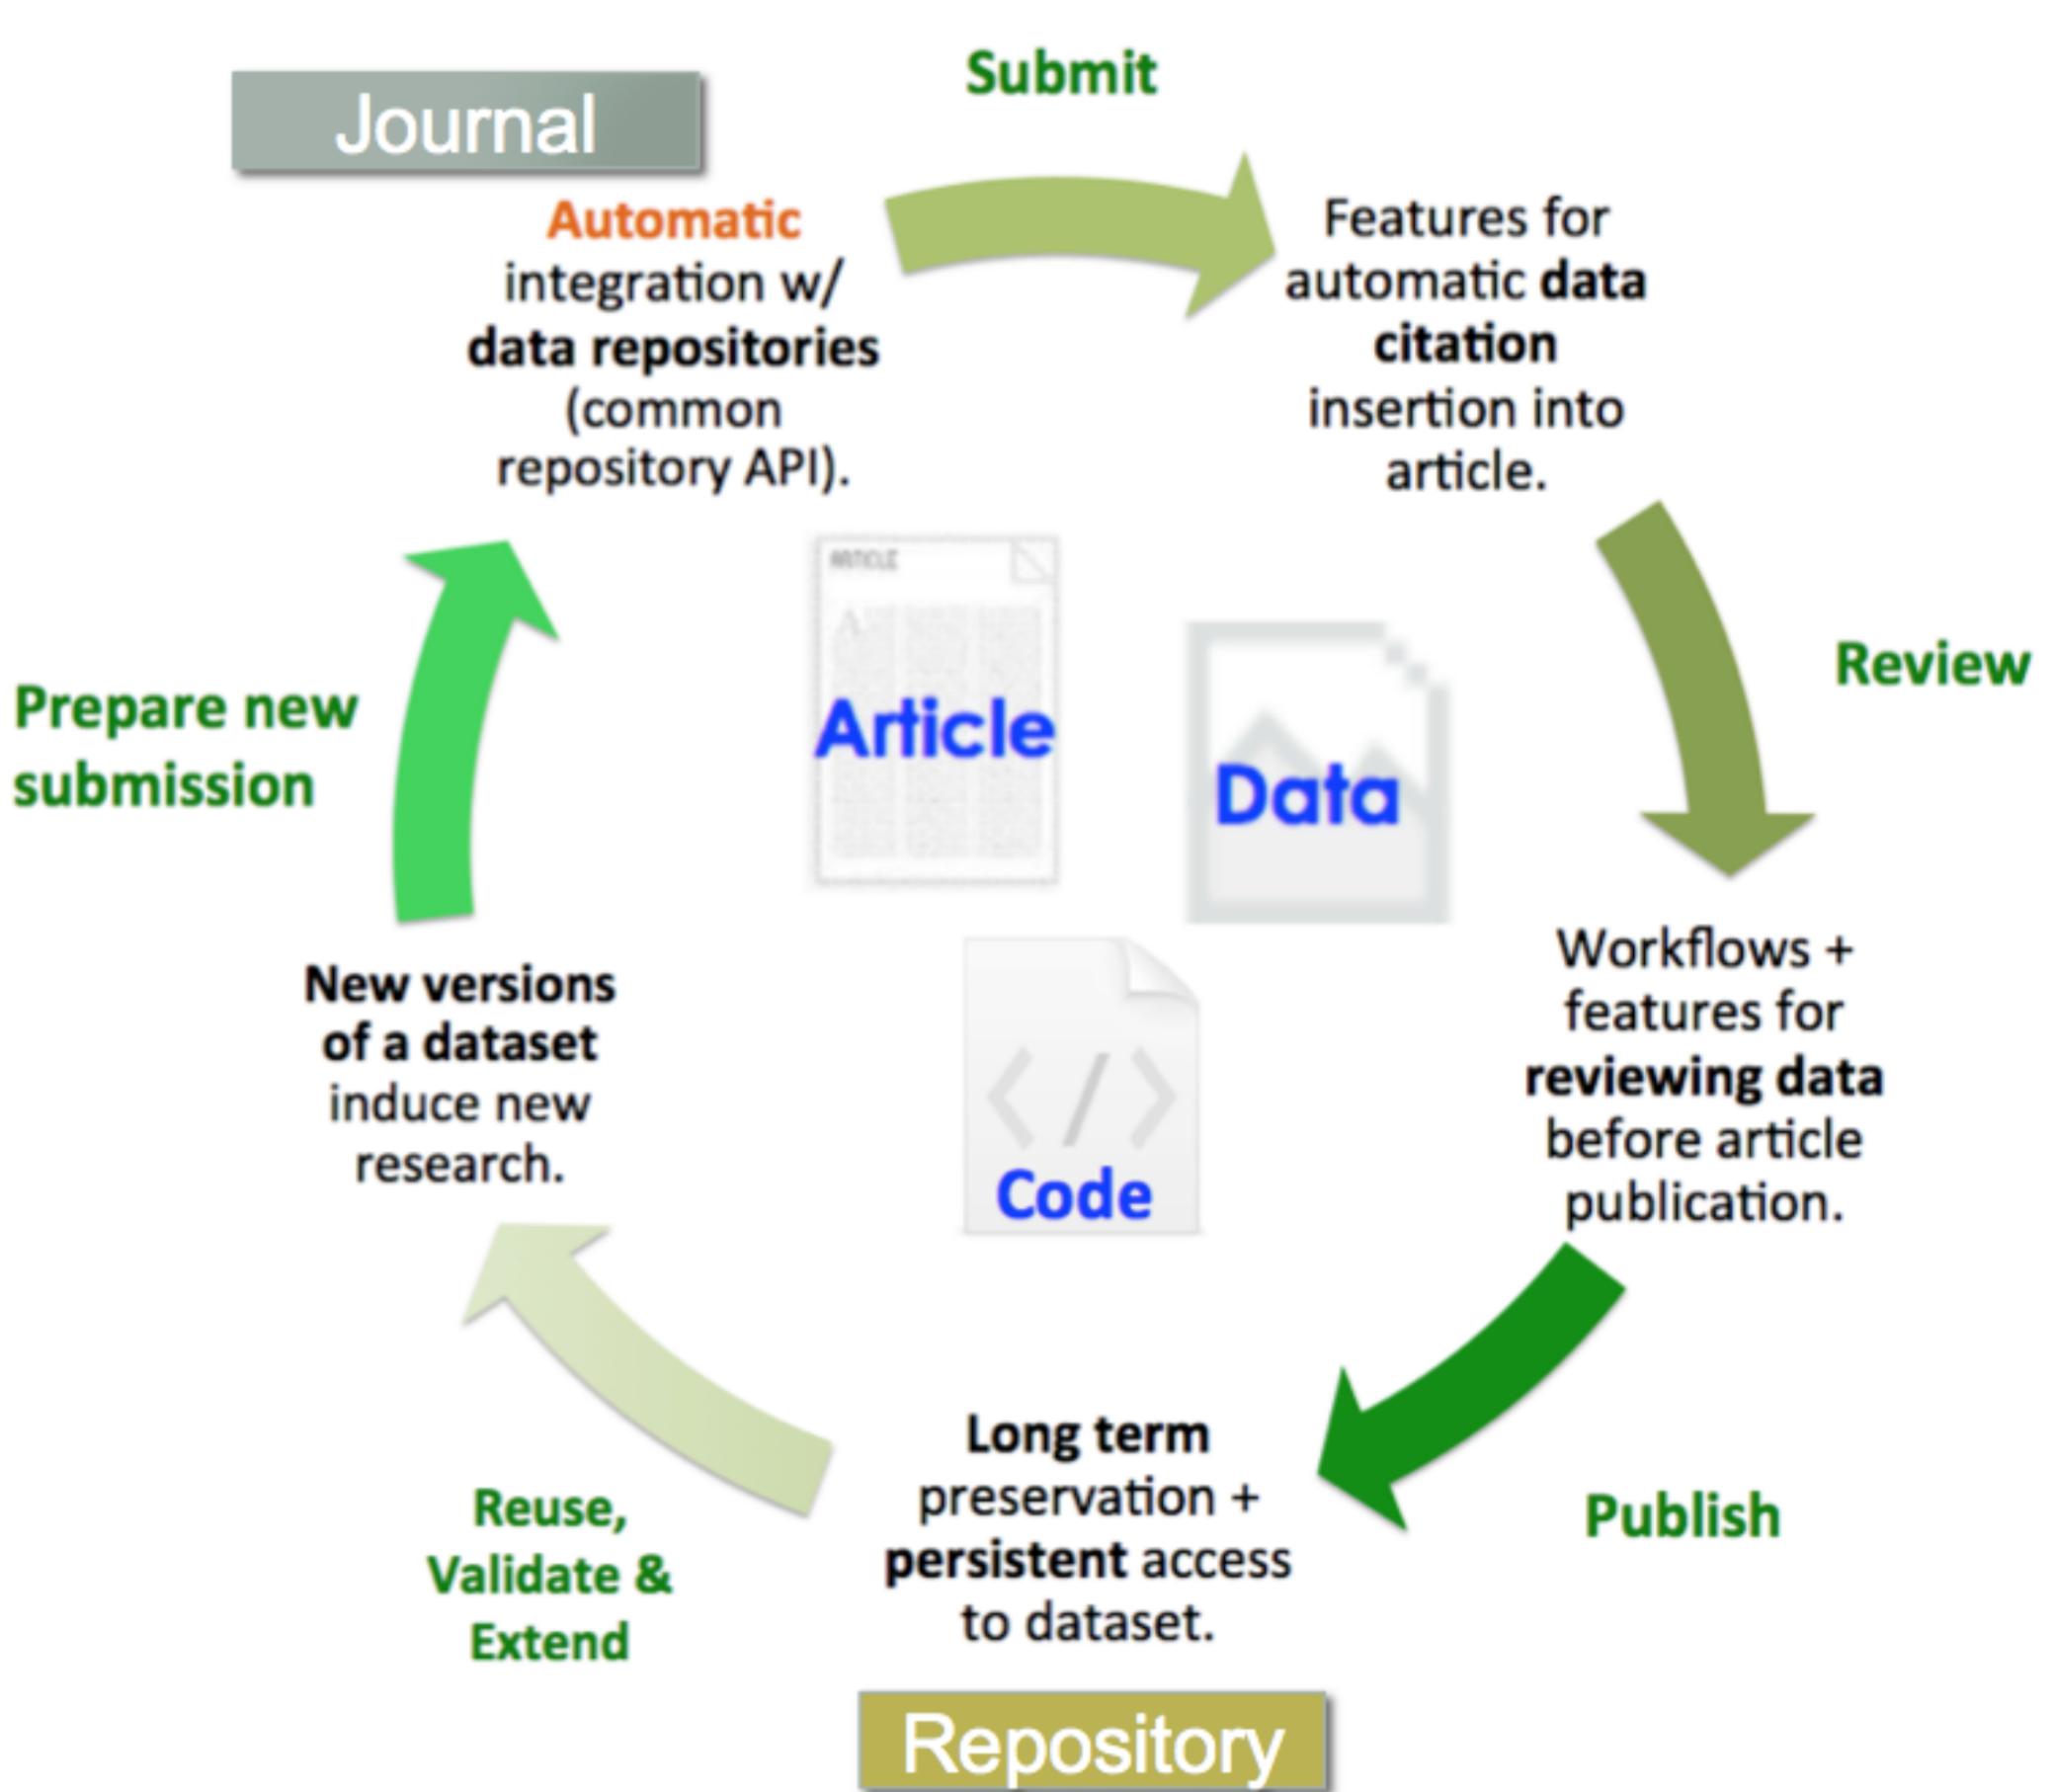

Open Source Research Data Repository Software

## Journal Dataverses Hosted at Harvard by the Numbers

## Integrating Journals and Data Publishing Workflows

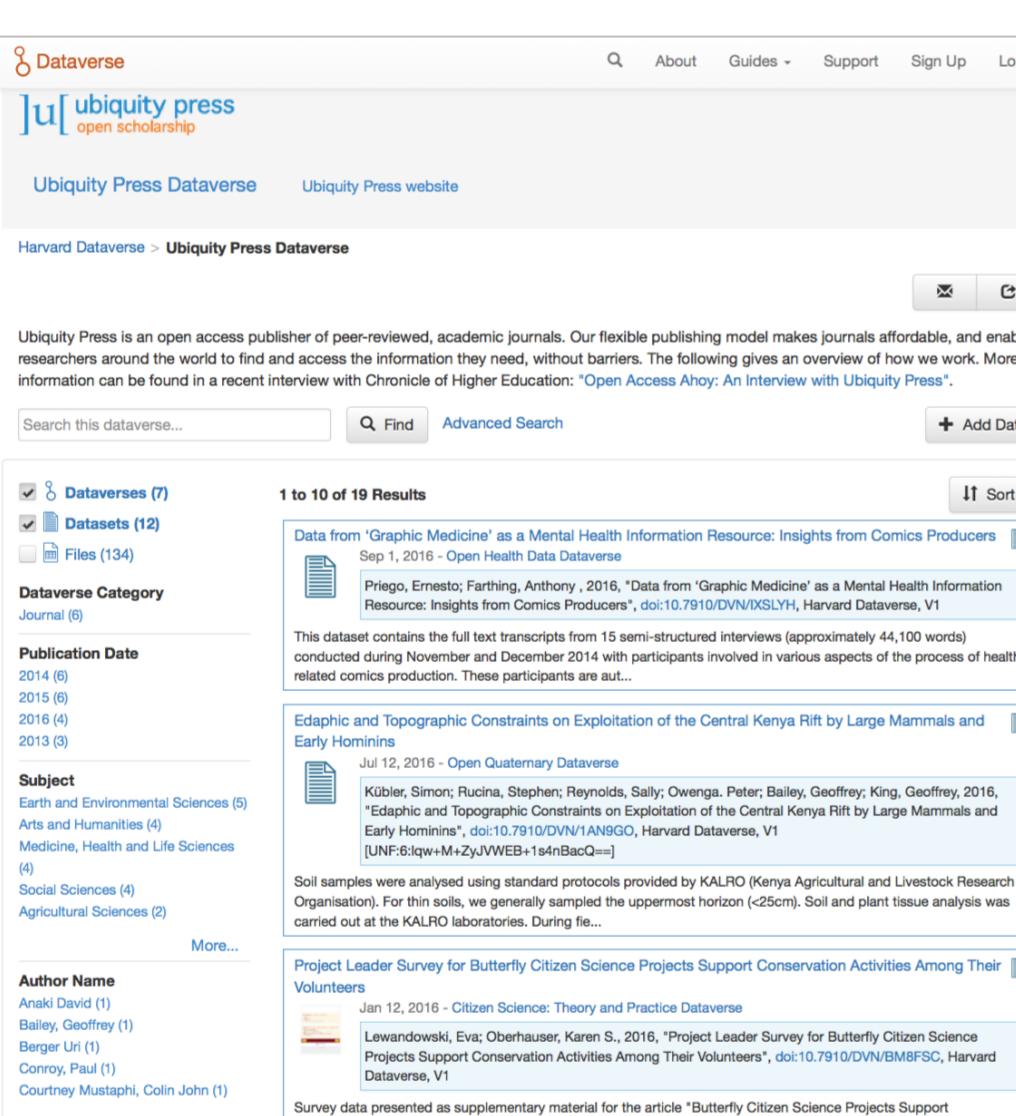

## Workflow 1: Create a Journal Dataverse

For journals who would like to:

- Organize all datasets per article/issue.
- Review datasets before publishing.
- Get a data citation with permanent identifier and link to the article.

Over 130 journals in Harvard Dataverse

Some examples of journals/publishers with dataverses in Harvard Dataverse:

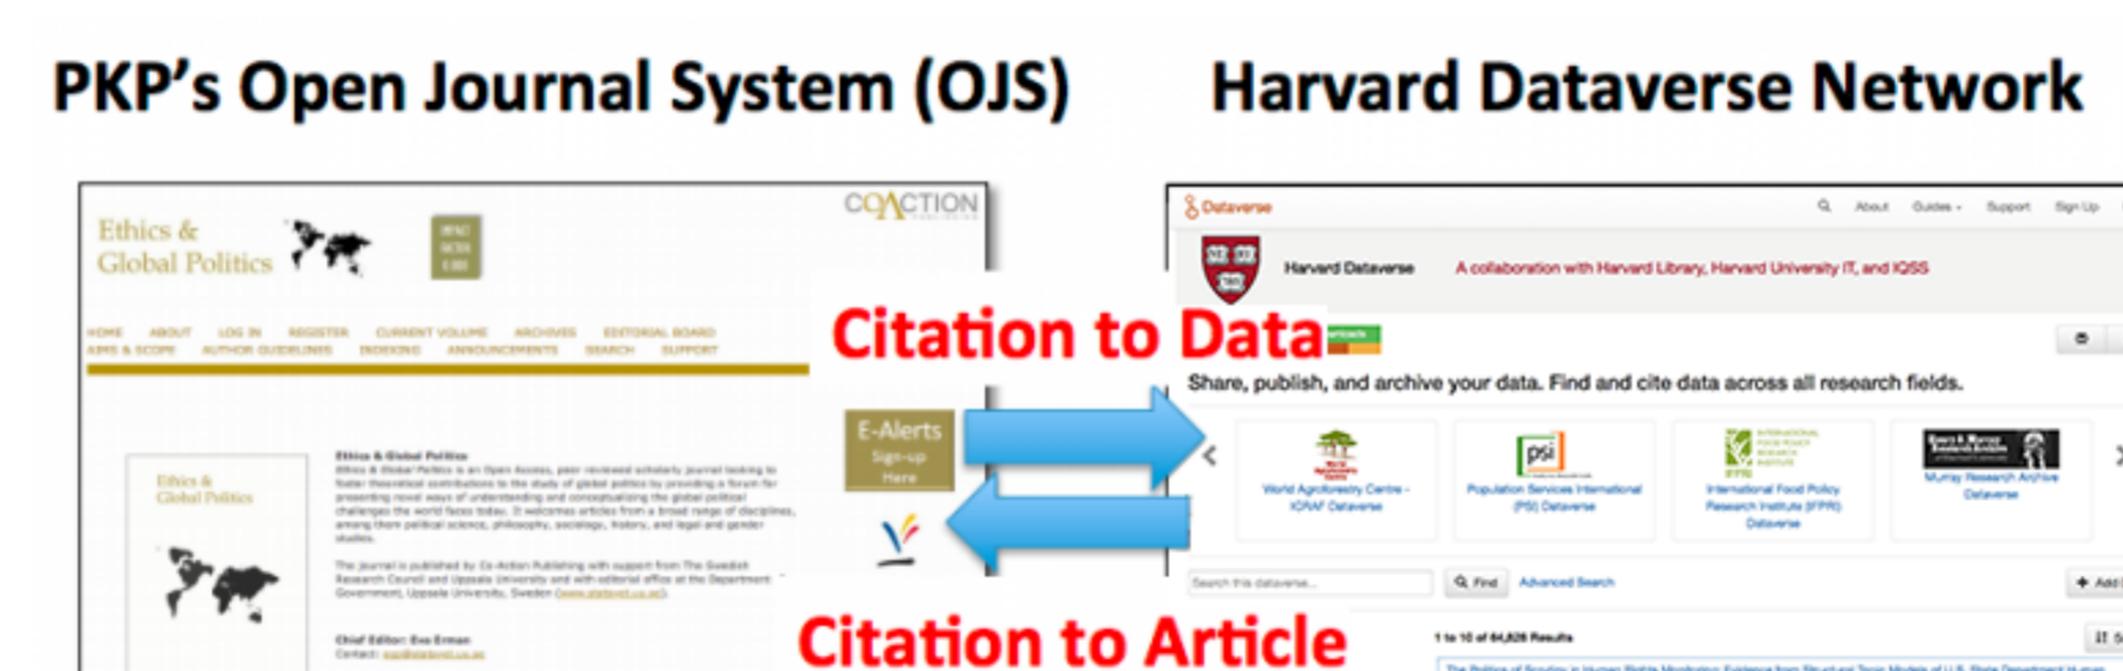

## Workflow 2: Integrate Your Journal System via API

For journals with a dataverse that would like:

- Authors to submit data at the same time as the article in journal system.
- Automatic data archiving in Harvard Dataverse with data citation added to article.
- Currently available for journals using OJS.

Contact [support@dataverse.org](mailto:support@dataverse.org) for help integrating your journal system with Harvard Dataverse

## Recommend Harvard Dataverse

Journals can:

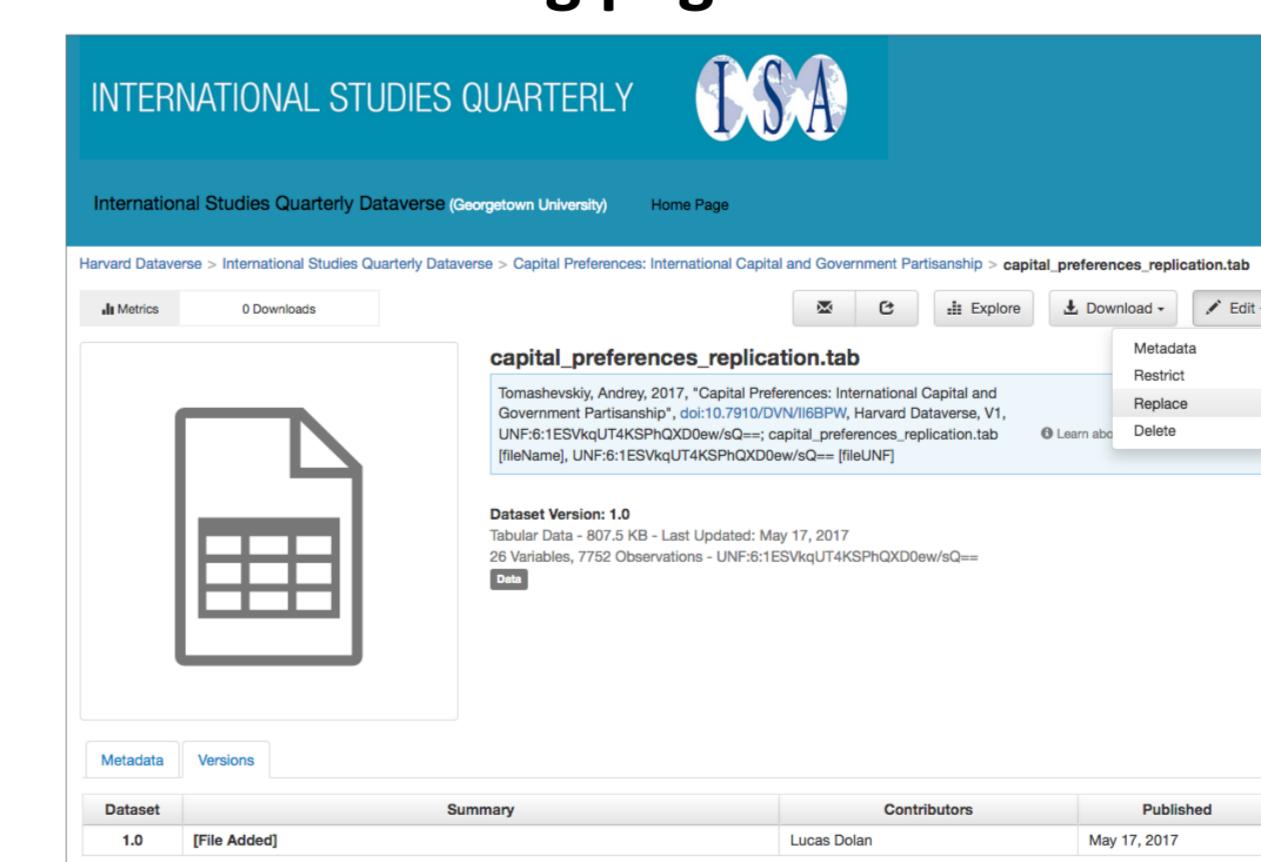

- Recommend Harvard Dataverse in their data deposit policy for authors.
- Ask authors to send them the data citation to include in their article.

Some examples of journals that recommend Dataverse:
